## DETAILED ACTION

### *Allowable Subject Matter*

1. Claims 1-24 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art taken either singularly or in a combination fails to anticipate or fairly suggest the limitations of the independent claims, in such a manner that rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claims 1 and 13, which include, an ophthalmologic apparatus having a measurement part for obtaining a corneal shape of the subject eye from a received light signal of the first light receiving part plural times at a measurement start point of time during a subsequent period of time and a judgment part for judging a state of a dry eye by comparing temporal changes of the corneal shape from measurement result of the measurement part (claim 1); and a wavefront measurement part for obtaining aberration components of the subject eye including at least higher order aberration from a received light signal of the light receiving part obtained plural times at a start point of time after blink of the subject eye during a subsequent specified period and a judgment part for judging a state of dry eye by comparing temporal changes at least the higher order aberrations of measurement results of the measurement part (claim 13).

Art Unit: 2873

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The closest prior art Yoshida et al (6,022,108) discloses an ophthalmic apparatus for judging alignment condition based on target images and Isogai et al (5,341,180) discloses an ophthalmic photographic apparatus. Accordingly, all of the references cited alone or in a combination with any other prior art references fail to teach or suggest the claimed a measurement part, a judgment part for judging a state of a dry eye by comparing temporal changes of the corneal shape from measurement result of the measurement part, and a wavefront measurement part, and a judgment part for judging a state of dry eye by comparing temporal changes at least the higher order aberrations of measurement results of the measurement part.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Priority***

5. Receipt of acknowledged of papers submitted under 35 U.S.C. 119 (a) – (d), which papers have placed in the file.

Art Unit: 2873

***Oath/Declaration***

6. Oath and declaration filed on 6/23/2004 is accepted.

***Information Disclosure Statement***

7. The prior art documents submitted by applicant in the Information Disclosure Statement filed on 6/23/2004 and 10/1/2004 have all been considered and made of record (note the attached copy of form PTO – 1449).

***Conclusion***

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mohammed Hasan whose telephone number is (571) 272-2331. The examiner can normally be reached on M-TH, 7:00 AM to 5:30 PM.
